Vienna 5th—The Archduke Francis, nephew of the Emperor, left last night for St. Petersburg.

Berlin, Feb. 5th—The delays in filling the vacancy of Chief of the Staff are causing much excitement. Some military journals venture that the Emperor will take over the post himself as Commander-in-Chief of all forces by land and water.

INAUGURATION
OF THE
ROSARIO RAILWAY BRANCH TO TUCUMAN.

FROM CENTRAL TO ROSARIO.

(From our Special Correspondent)

Rosario,
Feb. 5th, 3 p.m.

The special train with Mr. Todd's guests arrived here at six minutes past two p.m. We came in splendid style at the rate of forty-five miles per hour. The party consists of Messrs. J. W. Todd, London Director of the Rosario railway, J. S. Davison, London Secretary of the Company, William White, Local Director, D. Araoz, Inspector-General of Railroads, Dr. Zeballos, Postmaster General, Santiago Brian, local director of the Western Railway, Luis Huergo, ex-Provincial Minister, Dr. Pirovano, Mr. Wibberley, Sub-manager of the Rosario Railway, Mr. Barrows, manager of Buenos Aires Great Southern Railway, Mr. Hill, manager of the Pacific Railway, Mr. E. T. Puleston, representative of the Great Southern Railway in La Plata; Mr. Glasgow, manager Santa Fe and Cordoba railway; Mr. Pearse, locomotive superintendent, Sr. Pineiro, estanciero; Dr. Peñas, contador nacional; Mr. T. Clarke, manager of the company; Dr. Davila, editor of the *Prensa*; E. T. Mulhall of the STANDARD.

As we passed the Lima estancia at Zarate, we crushed to atoms millions of locusts on the line, and we could see by the gaunt stalks of the maize plantations the devastation in these parts caused by this pest. We arrived at Baradero at 10.30 where a splendid hot breakfast was served, at the conclusion of which Mr. Todd drank in graceful terms to the prosperity of Baradero, the most renowned potatoe growing district of the republic. The whistle of the locomotive put an end to any further toasts and we all started, dashing along at the "Wild Irishman" speed of the Holyhead railway. Here and there we came on patches desolated by the locusts, and from San Nicolas to Rosario the maize crop is all lost. The country, however, is beginning to look green, owing to the recent heavy rains, and the railroad seems to be in the most perfect order. The only stop—5 minutes—is in Rosario; and then we push on full speed for Sunchales and thence to Santiago del Estero.

The cattle look very thin, but the sheep are in good condition: owing to the locusts there is a certain air of poverty and crisis about the camps which we did not remark on former occasions. Rosario, from the windows of our railway carriage, looks asleep and ground down by excessive taxation.

Mr. Hill lost his hat at Zarate.

They say that the works of the new branch of the Central Argentine are now close up to San Fernando.

We crossed the San Nicolas branch of the Western Railway, but saw no trains, and the line had a seedy appearance.

Chilian Revolution.

Santiago de Chile, Feb. 4th.

The properties of the following people have been confiscated by order of Government:—

Altamiro Etelofis Blanco, Ventura Barrios, Alejo Besa, Jose Barros Luco, Ramon Concha y Toro, Melchor Castellon, Juan Danaso, Salvador Danaso Vergara, Gregorio Davila Larrain, Benjamin Edwards, Agustin R. Edwards, Alberto Edwards, Joaquin Errazuriz, Federico Errazuriz, Isidro Errosicoiz, Ladislao Gormaz, Eleodoro Guerrero, Adolfo Hurtado, Rodolfo Irarrazaval, Maduel Jose Lastaria, Demetrio Lira, Pedro J Marcoleta, Pedro Nolasco Maajoer, Enrique Mutte, Eduardo Matte Perez, Ricardo Maccluse, Eduardo Monti Jairre, ex-capitan de navio, Orrego Luco, Agusto Pereyra. Luis Puelma, Francisco Piesco, Francisco Javier Piesco, Jorge Rodriguez, Zorobabel Saavedra, Cornelio Silva, Waldo Urrutia Gregerio (ex-general,) Valenzuela Manuel, Francisco Vial, Alejandro Vial, Macario Vegara Alvarez, Salvador Walker Martinez, Carl s Walker Martinez, and Joaquin Zegers Julio.

The Imperial has landed the 2000 men it took from Valparaiso. These men are headed by Colonel Robles.

Government is beginning to lavish promotions in the army.

The garrison in Pisagua comprises 100 soldiers and the police battalion.

According to the *Comercio*, the revolutionists have only 800 armed men on board the warships. So far the fleet has been unable to land them.

The Esmeralda recruited 300 men in Ancud.

Government has decided to allow the export of nitrate provided the duties be paid in Valparaiso.

Three thousand men employed in the Ramirez Salitrera, between Pisagua and Iquique, left off work and proclaimed their intention to join the revolution. Colonel Robles attacked them, killing one hundred and taking 800 prisoners: 18 of the ringleaders were immediately shot.

Col. Wood's division has arrived at Ovalle en route for Serena.

Iquique and Pisagua are still blockaded.

THE CHILIAN STRUGGLE.

As matters now stand it would be very difficult to predict which side is going to triumph in the Transandine conflict. At one time the Executive, at another the Legislature, is in the ascendant, but it seems most probable that Chile will be desolated by civil war for several months, perhaps years. The forces on each side are unhappily almost equal. The revolution possesses two strong elements, the fleet and the opinion of the educated classes: the President has a well-disciplined army of 1,500 men, and all the power and influence that the machinery of Government imparts.

There is, meantime, in the present struggle a strong resemblance to the civil war of England between Charles I and his Parliament. Balmaceda has many features in common with the ill-fated Charles, and the Legislature of Chile is in precisely the same condition as the party headed by Cromwell in the long war. Already the quarrel is assuming a bitterness of tone that is calculated to shut the door upon conciliation, the President having proceeded to confiscate the properties of the chief persons connected with the revolution. Foremost among these is the Edwards family, equally noted for their princely fortune and their more than princely munificence: the late Mr. Edwards left a fortune valued at four millions sterling, and his widow, who inherited a considerable portion, has made it a rule since his death to devote the half of her annual income to charitable purposes.

Another of the confiscated estates is that of Orrego Luco, brother of the recent Chargé d'Affaires at London, who arrived per Liguria on Monday and is now travelling overland to Chile. The respectable family of Lyon has also incurred Pres. Balmaceda's displeasure, and possibly the large family estates are in danger. The founder of this family was a Scotchman, who landed at Valparaiso with three shillings in his pocket; his grandson, now the inheritor of vast estates and of a name held in much esteem among Chilenos, was also a passenger per Liguria from England and has recently married a daughter of Mme. Cousiño, the richest woman in the world. If Balmaceda triumph he will probably treat his opponents as Cromwell did all those in Ireland who foolishly fought for the Stuart king.

Confiscation is a terrible and relentless weapon in the hands of a king or autocrat; but it has a decided advantage in swelling the number of his followers. Hence we may be prepared to see Balmaceda's party increase as the fury of the war increases. Public opinion is, indeed, almost unanimously against him, but a well-equipped regiment of dragoons counts for a great deal in South America. It is not easy for the fleet to measure blows with the land forces. Up to the present the latter have been able to hold their ground, while the fleet rides along the coast from Iquique to Port Montt. Thus the probability of a protracted war, instead of a mere revolution, becomes every day more evident.

Those who have made friends in Chile or have had occasion to become acquainted with the educated class of Chilians will deeply deplore the internecine struggle on the West Coast. The Chilians have a charm of manner, a cultivated taste, that no people in the world can surpass. Possessing a country little favored by nature and cut off geographically from most of the world, they have, nevertheless, made great progress in material arts, but still more in the refinements of life, while preserving rigidly the ideas of their ancestors.

It is, therefore, much to be lamented that a people who had so many titles to rank among the foremost of Spanish America should see their hearths and homes devastated by fire and sword. We do not undertake to say that all the blame lies with President Balmaceda, or with his opponents, but we cannot fail to express an opinion that confiscation is an unfortunate method of waging war in the nineteenth century. It revives the worst recollections of the Middle Ages.

PARIS LETTER.

(From our own Correspondent)

Jan. 3rd

The holiday season, which is on the point of closing, has been in every respect a most happy one. Weather, Russian and spring-like alternately, and in both agreeable and enjoyable. Trade brisk, money plentiful, no home or foreign complications to awe the timid or stimulate the brave. These combined conditions begot good spirits and all round contentment.

What struck every observer was the influx of people to Paris. Where did they come from? They seemed to have sprung up like the famous human crop from Cadmus's teeth. And not only were the multitudes composed of the class of persons ordinarily expected outside of doors during a severe winter, but the very aged and the very young—well clad, of course—put in an appearance at the Kermes e.

New Year's Day is one of tread-mill work for Parisians—visiting and receiving visits. It is wise, in honor, if not in memory, of the day we celebrate for a resident in the capital to have himself coined into five-franc pieces, and to sow them broadcast. The custom of giving tips to all who have done something, or nothing at all, for you during the expired year is a hydra-headed evil that it is hopeless to try and eradicate. As well endeavour to restore monarchy in France or re-build the Bastille. Making presents of toys to children is not objectionable, but gifts to their parents and elders is an inanity and akin to an insanity. In the same category of the imbecilities must be included the sending of visiting cards, about as sincere as a how-do-you-do, a raising of your hat, or a shake of the hand. In vain has the crusade been made to abolish that and kindred social torments. If some secular Peter the Hermit, or Cardinal Lavigerie, could but organise an exterminating opposition against the Shams.

The opposition would be impracticable, you may say! Not a bit of it, because it has succeeded in Russia—so light still comes from the north—in the case of that other "corvee" on New Year's Day—the insipid and trying custom of visits. It is all very well on the part of employés, who call on their employers to receive a gift of cash which is in their bond of engagement, though not down in black and white; but for people with whom time is money, the duty is odious and next to intolerable. A hasty call on rushing lines involving useless expense; conversation without an aim or interest; trotting continued not only for a day, but mayhap for a whole week, to exchange a shake hand with an individual you but slenderly know, and to whom your presence may be inopportune. In France, the visit is as much a necessity as the conscription or state taxation.

The Russians rid themselves of the nuisance in this wise: At St. Petersburg some 8 or 10 days before the first day of the new year, the journals publish a list of individuals who make donations of 12 or 20 fr. to the city charities, in exchange, to be socially released from executing the annual visitings. The lists are maintained in the journals pending the fete, and following the fatness of your donation. You find thus absolution.

The partial renewal of the Senate, by the election of 79 members, will take place to-morrow. Not much excitement reigns in respect to the event. The republicans are sure to have the majority; though they oppose each other in some departments, it is only a choice between unobjectionable candidates. A few royalists will be returned. Indeed it would be a misfortune did the Senate possess no opposition. The election of Senators is effected by the double degree vote. Only delegates of the Municipal Councils, of the departmental and arrondissement councillors, the Senators and Deputies, are eligible to vote. Paris, and its department the Seine, has only 715 of these electors, and has 5 Senators to nominate. French India returns one Senator by only 96 electors, while the department of the Somme with 1,449 electors returns but 3 Senators. In Paris M. de Freycinet will be elected as a matter of course; journalists of nearly all shades put their shoulders together to secure the return of their popular "confrere," M. Ranc—"who is a right good fellow." He was one of the political victims of Napoleon III, and was transported to Lambessa; his escape therefrom; the sufferings he endured, and the dangers he incurred read like a sensational novel. He was platonically mixed up with the Commune and certainly would have been shot if captured when passions ran high, but it is no secret now to tell that his escape from France was connived at by even reactionists themselves. He was an old and intimate friend of Gambetta, but somehow has never been able to charm electors to send him to Parliament.

The return of M. Jules Ferry as Senator for the Vosges is certain. I predict he will figure prominently during the current year in the political life of France. There is only one man equals him in practical talent and redoubtable energy—Cardinal Lavigerie. If he can arrange to conciliate the Church party by some timely concessions that would not weaken the present form of Government, but that would put an end to many heart-burnings, M. Ferry would grip the country in a manner not to be misunderstood. He and his followers wiped out Boulangism; the fierce unpopularity against his Tonkin blunders has calmed down. He is a fixture in the Senate for nine years; the perpetual candidate for the presidentship of the Senate, the premiership and the presidency of the Republic. The running for the highest honors of France lies between himself and M. de Freycinet.

Public opinion would like to see the Newfoundland dispute settled before the year grows much older. The Mahometcoffin position is evidently impossible to maintain, and it would not require much to seriously complicate the situation. If diplomacy cannot find a solution the consequence will be a decided advance of England to the triple alliance. That can only mean making provision for the rainy day.

Happily there are no war rumours abroad, and opinion has lulled itself into forgetfulness of bloated armaments. But the "Vigilants" beg us to keep a half-opened eye on Servia and the stream of rifles and other arms that Russia is sending into that country. The Bulgarians are aware of this, and quite prepared for the defensive.

Petulant Portugal prances a good deal, but does not advance one iota in her aims. The walls of Paris continue to be kept covered with enormous red posters, warning French people not to lend a sou to the Portuguese till they pay their debts. The despatch of troops by Portugal to Mozambique does not create a favourable impression here, and it is expected that England has duly made up her mind that she cannot, consistent with her dignity, tolerate much longer the pranks of the Lusitanians. To give the latter a squeezing, if it comes to that, will not set Europe on fire. A fresh cargo of Berdam rifles, from Odessa to Servia, would cause more anxiety for European peace.

Respecting Argentina, opinion in France is suspended: it is believed that no permanent change can take place till after the Presidential election.

M. Carnot's reception on New Year's Day was very brilliant. The gathering of all the high officers of the army impressed me that not a button is now wanting on the soldiers' gaiters. When I recall the New Year's Day, 1871, reception, what a resurrection!

EVENTS OF 1890.

The incidents affecting trade and finance in the past year have been of such importance that a record of principal events may be found useful for reference. Except for Prince Bismarck's retirement in March, European political features have been unimportant, and the developments of politics in North and South America have been consequent on commercial and financial features, rather than arising from what is understood from politics. SANTA FE LAND COMPANY AND THE "PALACIO DE LOS INGLESES."

To the Editor of the STANDARD,

Dear Sir,

I have read with much interest the letters from Mr. Crampton, "Rafaela" and "Roger Canmalla," the result has certainly been edifying. The first letter is, I understand, taken from the 23rd Chapter of a 'Family Herald' novellette, the second appears to be from the 1st Chapter of "Practical questions requiring straight answers," and the third from "Picture of a London Board or the wonderful administration of an estancia by my worthy friend Mr. O'Mears. I do not wish to add another volume to Rider Haggard's popular works with which the "Estancia Library abounds;" but I do wish to call the attention of the shareholders of the Santa Fe Land Company, and especially those of them who are resident in this country to the condition of the Company and its property. It seems a crying shame that such a laughing-stock as the "Palacio de los Ingleses" should exist, and enough is known on this side of the water and enough has been said to demand a Commission on behalf of the shareholders to examine into the administration of the Company's property. I believe several people have been from time to time responsible for the management; the past history wants going into properly and the present corrected.

Before the meeting of the shareholders in June next, a thorough report, drawn up by thoroughly competent and independent men, should be submitted to every shareholder—such charges as made against the London Directorate by "Roger Canmalla" could be ventilated, and "Rafaela's" questions answered.

Thanking you for allowing me a space in your columns,

I am, dear Sir,
Yours truly,
Straight-Tip.

LANUS v. VILLA CONSTITUCION.

Played at Lanus on Monday, February 2nd, resulting in a win for the home club, thanks to the good batting of Messrs. Cornwall, Parry, Robson, Bennett and Stokes, and the equally good bowling of Messrs. Halstead and Cornwall. The wicket-keeping of Mr Stokes was also a most noteworthy feature of the day's cricket. For the visitors, Mr. Clarke's bowling was consistently good throughout. The following is the score:—

Railway Items.

The N. R Board have approved the contract of Messrs Charles Lockwood and C. W. Drabble for the construction of a railway from Villa Constitucion to Acevedo station. The Board, however, urge Government to reduce the $5000 fine for every month's delay in the building of the line to $2,500.

In another column will be found a telegram about the inauguration of the Tucuman Railway.

The Board have likewise approved the proposed modification in Art. 10 of the contract for the construction of the Santa Fe and Cordoba Great Southern.

Talking of this railway, we may state that the Inspector-General has reported on the application of the Company to be allowed to expropriate land for the line in Chacabuco and Maipu Colonies. The I G says he does not find any objection to the proposed expropriations, which are in accordance with the plans approved by the Engineers' Department. The Land office, however, will have to determine in what way the expropriations are to be carried through.

The following list of traffic returns, which we take from our latest exchanges Jan. 10, will be found interesting:—

Cordoba Central Railway.—Traffic receipts for week ending Dec. 28, 1890: Original Line, miles open 128½, $16,000 gross; Central Northern Section, miles open 549½, $60,000 gross.

Argentine Great Western.—Approximate receipts for the week ending 3d Jan., 1891, were $25,900, as against $25,682 for the corresponding week last year. Miles open, 319.

Buenos Ayres Western Railway Limited.—Traffic receipts for week ended 28th December £10,790; per mile, £31 18s. 6d. Gold premium, 220. Miles open, 338.

Central Argentine—Miles open 1890, 437; 1889, 293.—For week ending Jan. 4th, 1891; Receipts, £9,647; corresponding week last year, £15,616; decrease, £6,031. Gold premium, 1891, 223 per cent.; 1890, 132 per cent.

East Argentine Railway.—Miles open 99.—Receipts for 2 weeks ending Nov. 30th, 1890, £4,143; as against £3,159 in the corresponding period last year. Increase, £984. Gross receipts from 1st January to date, £80,337, against £58,408 in 1889.

Buenos Ayres Western Railway.—Miles open, 338. Traffic receipts for week ended 4th Jan., 1891, £10,274. Per mile, £30 7s. 11d. Gold premium 223.

Buenos Ayres and Pacific Railway.—The approximate earnings for the week ended on the 3rd January, 1891, were $45,050. Miles open, 426.

We take the following from a London exchange of Jan. 3rd:

"The Secretary of the Argentine North Eastern intimates that the Government portion of the dividend now due on the Preferred Stock is not to hand. Out of the £45,000 required to pay the present half-year's interest on the Preferred Stock, the contractors have provided £33,000, which enables the Directors to make a distribution on account of £2 4s. per cent. for the half-year, less income tax. The guaranteed interest, when received from the Argentine Government, will be revenue of the Company, and subject to the ordinary provisions of the law in regard to declaration of dividend out of profits, and in view of the state of uncertainty which affects all Argentine enterprises, and of the fact that the Debenture Stock interest, which will be payable on the 1st May next, constitutes a first charge on the company's own revenue, the Directors do not feel justified in declaring a supplementary interim dividend payable out of the guaranteed interest when received. The dividend on the Preferred Stock is, however, cumulative.

EDITOR'S TABLE.

The weather was the only delightful thing going yesterday; but it failed to raise the public spirits. Pessimism reigns supreme on and off 'Change.

It is our painful duty to announce the death of Mr. Henry Goodhall, Danish Consul at Bahia Blanca and brother to H.M. popular vice-consul in the same place. The lamented gentleman had come to town for medical advice, and was found dead in his bed in the Hotel Universelle yesterday morning at eleven o'clock. A host of friends will mourn his premature end, as he was held in the very highest esteem by all who knew him. The funeral will take place at the British Cemetery this morning at half past nine o'clock.

The Admiral Brown is expected in port to-day with General Paunero's remains. The ceremonies yesterday at Montevideo were of the most imposing character; the people turned out to see them, and the day was much of a half-holiday.

Among the passengers per Liguria is Mr. Gifford, formerly an estanciero of Sauce Corto, in the southern camps, and nephew of Messrs Gifford, long known as one of the great English houses of Canton and Buenos Ayres. He is accompanied by his brother and both think of settling in this province, believing that the present hour of public depression will soon give place to better times. We gladly welcome such birds of good omen as Messrs. Gifford.

We had the pleasure yesterday of a visit from the Revd. Thomas Brydges, who arrived in the German steamer Kambyses from the Straits of Magellan. The reverend gentleman has been four years absent and reports a thriving state of affairs in Tierra del Fuego, where he is at present working the land grant so generously conceded to him by the Argentine Government for his many years' services in that distant territory. His many friends will be glad know that he is in the best of health.

An amusing rencontre in Calle Florida between a money lender and a fashionable young fellow about town who owed him a round sum is reported. Shylock wanted cent per cent, and he got a thrashing instead. In the scuffle his wig and false teeth were knocked off and out, causing uproarious merriment amongst the spectators.

No new Cabinet at Montevideo yet, all the proposed ministerial combinations having proved soap bubbles. Some people are beginning to fear that Herrera thinks he can get on very well without a Cabinet for an indefinite length of time.

Crowds surrounded Bossi's window in Calle Florida yesterday to look at the coal from San Rafaela, Mendoza. The article is no great thing, being soft and cakey; but the way in which it is exhibited is quite an artistic triumph for Bossi.

The host of friends of Dr. Ruecker Jenisch, ex-Secretary of the German Legation here, will be pleased to learn that he has been promoted to be Secretary of Embassy in London; but they will be sorry that there is no chance of seeing him back here, where he was so highly appreciated.

The Village of the Plain is working up a Corso for Carnival; and most of the other suburban villages are doing likewise.

Our new evening contemporary the *Argentino* appeared yesterday. We wish it the best success. It is full of news, one item of which is that the hitch in the Bateman Legacy business is only a fleabite of £4,000,000 stg.

We are informed that the meeting of the English Literery Society convened for Wednesday last came to naught, a quorum not being formed. Another meeting, with the same object, will be called for the 18th instant.

The light Italian Opera Company now playing at the National Theatre is really a very good one, whilst the orchestra is exceptionally good. On Wednesday, "La Campana dell' Eremitaggio" was given for the first time in South America; the music by Sarria, whilst occasionally redolent of reminiscences, is always melodious and pleasing, the chorus in the second act and the drinking song of the third being brilliant in the extreme. The honours were taken by Sta. Roncaglia,

Rebaja de Precios,

En virtud de las reformas realizadas en la fabrica de esta compañia, que le permiten elaborar una cantidad mucho mayor de gas de la que antes producia, el directorio ha resuelto hasta nuevo aviso fijar el precio del gas del modo siguiente que regira desde el 1° de Febrero proximo.

Por metro cubico $0-226.

Por impuesto municipal $0-004—Son 0 23 pesos el metro cubico.

Para consumidores de cierta importancia haremos un descuento en relacion al consumo.

No duda el directorio que dada la calidad del gas que fabrica esta compañia, cuya intensidad de luz es siempre superior al tipo oficial de 20 velas, el publico se penetrara de la gran ventaja que tiene en usarlo.

Si hasta ahora hemos cobrado el precio de 25 centavos por metro cubico, es porque nuestros elementos de produccion no nos permitian dar abasto a todos los pedidos; hoy, a pesar de las malas circunstancias por el alto precio del oro, lo expenderemos a 23 centavos incluso en este precio el impuesto municipal, contando con que el aumento de consumo nos compensara la rebaja que hacemos en favor de nuestros numerosos clientes

THE DIPPING SEASON.

Under the above heading, the following appears in a recent exchange:—

"Speaking of Dips themselves, perhaps the most significant feature in their "History is the way that the Old-fashioned have been superseded by the more "Modern and Scientific preparations. As Tobacco gave place to the various "Fluids" "and these again to the "Powders" so we find to-day these latter retiring before the "new Paste Dips. Of the many recent experiments we have witnessed in England and "the Colonies, the most successful were with an Arsenical Paste, manufactured by "Tomlinson and Hayward, of Lincoln, a firm that has always been noted for keeping "abreast of the times."

"The advantages of the Paste over the "Powders" are many:—

"It does not make the wool dry and harsh, but leaves it soft and silky, giving a "healthy sweet smell to the sheep. Being, so to speak, already mixed, it is easier to "prepare there, being no waste nor loose "Powders," to fly about.

"As it is prepared with Carbolic it is lighter than the "Powders" and does not "so readily settle to the bottom, and for the same reason it is not injurious to the "hands. It goes in less space and is a more concentrated form than the "Powders." "thus effecting an economy in transport and labour. It costs less, and will mix with "any kind of water. In a word, it is the "Powders," cleared of their many inherent "defects, with their curative properties and good qualities preserved and increased. ON 'CHANGE.

Thursday, February 5th.

Matters seem to be growing daily worse on 'Change, and the lugubrious countenances drawn by brokers and dealers over the complete stagnation in business and collapse in quotations is one of the most pronounced features of the situation. People are again asking with amazement how long this can last and what will be the end. Gold keeps unflinchingly steady, stocks collapse, and the bottom is slowly dropping out of the Cedula tub, which is now in such a desperate state that many think the quotations will soon be under 40. Series L and M dropped at the first hour to 43, N and O to 42.50, and P to 44, and even at these rates there were few buyers, which is a significant sign of the distrust prevalent in the market. Meantime, although the National Bank continues drawing freely, having given for the French packet no less than 2,100,000 francs, gold keeps ominously firm, being in demand at 327.50. Many people think that Minister Lopez cannot face much longer the staggering figures, which are a direct condemnation of his views, plans, and expectations, and it is rumoured that his resignation is already spoken of, and even his successor fixed upon; but it is an instance of the wish being father to the thought, and Dr. Lopez laughs to scorn the idea of resigning. At all events, it is the general opinion that under the present disastrous state of affairs matters are growing daily worse.

The following is a summary of operations effected this afternoon during the first ring:—

Affairs in general were feverish yesterday. Absurd rumours of impending disturbances here and in Entre-Rios were floated in the street, but these reports were fanciful speculations of those who like to "fish in troubled waters." "Disorder is no longer quoted on our Stock Exchange," says the optimist, and he points to the peaceful record since the July revolution. Optimists are the few, pessimists the many, and in the midst of doubts and anxieties the financial and commercial elements languish. Affairs are at a standstill. As an index to the situation nothing could be more eloquent than the figures of the Custom House, now ranging from $10,000 to $40,000 per diem. Thus we inaugurate what is styled the "Catonian ers."

There are some people who will clutch at a straw to escape their watery fate. In this fashion the credit of £1,700,000 in favor of the National Bank is trumpeted far and wide as a burst of fresh vitality and a harbinger of better times to come. None so blind as those who will not see. This credit of the National Bank is a mere drop in a bucket, the faintest of ripples on our financial beach. When a London loan of £15,000,000 fails to improve our currency, what can be expected from the Lilliputian credit upon which the National Bank is now drawing? In the opinion many, this fresh credit to an exhausted state bank is a mere sop to Cerberus or our Financial Cato. But our London friends do not know the mettle of the Minister of Finance; he is proof against any temptation, even from London bankers. Others maintain that the fresh credit is a lever to influence the gold market. We, for our part, can say that the market is very shrewd and can see through any manœuvre of this kind.

Some of our colleagues attach a certain political significance to the appointment of Don Francisco Uriburu to the Chairmanship of the Bolsa. This may be the case in political circles, but on 'Change there is no such feeling, and the Camara Sindical was inspired by no political motives when it elected Mr. Uriburu unanimously. In the Bolsa there is a general feeling of confidence in Mr. Uriburu whose lengthy experience in the commercial community is highly valued; there is also general satisfaction to see him surrounded in the Camara Sindical by such tried and trusty men as Messrs. Mendez Gonsalez, Becu, Lemon and the new nominees whose names we gave in a previous issue. Politics are tabooed in these matters, and so much the better.

Some newspapers are beginning to agitate against the private banks; one paper says that the private bankers have opened an organized attack against the Government; another paper threatens the bankers with the consequences and responsibilities of such a line of action. We need hardly say that there is no foundation whatever to such grave and injudicious charges. Let it be remembered, that if the bank managers were to open fire on the Government, the simplest and most effectual means of warfare would be total stoppage of discounts. This they, however, have not done, as they dread the panicky consequences of such a policy in this very susceptible market. So far we can glean the bankers are helping the Government, and if we are not much mistaken the Minister of Finance has received favors from them to the amount of many million gold dollars. The threats of the newspapers merely spread distrust and make the situation more critical.

Paysandu advices announce that Argentine cattle are selling there at $4.60 gold per head.

If there is one thing that calls for special comment in this crisis it is the religiosity with which the Bank of the Province promises to discount sundry millions every bank day. As these discounts are never made, these banking promises are becoming ludicrous. Fancy what the market must think of the two great State banks supposed to have deposits exceeding one hundred millions each, yet unable to discount a few paltry millions. Such a situation is certainly not favourable to the Ministerial invitation, rather summons, that the savings of the people be taken from the private banks to the State banks. What will fatally happen is the hoarding of gold and paper in safes, stockings, old hats and mattresses.

Talking of the Provincial Bank, the whole market is amazed at the petition of the La Plata Finance Minister for $1,500,000 m|n. The La Plata Government must be in straits when it makes such appeal to the Provincial Bank. There was a time, not so long ago, when the profits of the Provincial Bank and the earnings of the Western Railway could suffice to pay the whole administration of the province: the people could have flourished without taxes. It might have been an age of gold; alas! it turned out to be an age of brass and steel.

In reference to the advertisement of the London and River Plate Bank announcing the payment of 4 per cent interest on gold deposits at 90 days, we may observe that other banks pay interest on gold deposits; the English Bank of the River Plate, for instance, pays interest not only on gold deposits but on gold deposits in account current; this bank, in fact, never suspended interest on gold.

Early in the day the rates of exchange were quoted at 17⅞d. England, 1.56 francs France and 1.26 marks Germany, but at a later hour a notice was posted announcing that the National Bank would draw at the following rates :—

England, 14 15/16d.
France, 1.56 francs
Germany, 1.26½ marks
Belgium, 1.56½ fcs.

Brokers reported very little doing.

Freights are reported very firm, due to a scarcity of tonnage, and 35 francs per cubic metre for bales for Dunkerque and Havre is now paid, and 35 shillings for Antwerp.

The R.M.S. Clyde left Rio yesterday at 12 o'clock for the Plate.

There was no change in the state of affairs at the second hour, stocks being most flat and dull and gold firm. Cedulas were neglected, and although they shewed no further decline in price, neither did they shew any advance. Gold rose to 328.50, closing with sellers at this rate. National Bank Shares are tottering at 96.50, Constructors at 11.30 and Catalinas at 17.90. Some Credito Real shares changed hands at 37, and Bolsa Bank shares at 38.

A large bar of unwrought iron from the Romay Mines, in the Province of Catamarca, was on exhibition on 'Change today and called much attention as a sample of the great natural mineral riches of the country.

The attitude assumed by Dr. Lopez in elevating the wool tariff from 27 dols. gold per 100 kilos, the rate fixed by the Camara de Comercio, to 36 dols. caused such a commotion in exporting circles that the Chamber of Commerce has taken the matter in hand and laid an energetic protest before the Minister, calling his attention to the fact that, taking the price of gold at 325, the tariff for wool at 36 gold dollars would suppose the average market price to be 11.75 mn paper per ten kilos, which is absurd, considering that prices range from 6 to 8 mn, and even then excluding bellies, lambs' wool, etc. As a matter of fact, only very special lots have fetched over 11 mn, and in view of this the Minister is asked to reconsider the matter and reduce the tariff to the figure originally fixed by the Chamber. At 27 dols. per 100 kilos the market average comes out at 8.70 mn per 10 kilos, which may be considered above the average.

The Provincial Government has issued the decree ordering the leasing of the "centros agricolas" and lands purchased to enlarge towns, the leases to run from year to year with a reserve in favour of the Government to enable the latter to recover possession by giving four months' notice or such time as may be necessary to get in the crops, etc. Offers will be received by tender, and payment is to be effected in bills at three, six, nine and twelve months' date, drawn and endorsed by parties of accepted credit. A month before the expiration of each year the leaseholder can renew his application, and in the event of being obliged to evacuate before the year expires, full allowance will be made and the "pagarés" returned.

Two well-known members of the ring are about to leave for pastures new. Messrs E. Mayol and E. Billinghurst have requested the Camara Sindical to take their names off the brokers' roll.

In the produce markets business is reported very dull, in spite of heavy arrivals of wool, the greater part of which goes to deposit. The arrival of wheat is not heavy, and prices are well maintained. It seems that advices from Europe are not favourable, and this, combined with the export dues and advance in freights, has almost paralysed the export business.

In live-stock, novillos to "invernar" are reported in fair demand, the criollo fetching 15 to 16 dols. per head and cows from 6 to 8 dols. Novillos for saladero are quoted at 18 to 20 dols. and cows 10 to 12 dols, whilst mestizo cows "al corte" are worth 9 to 10 dols. Lincoln cross sheep are quoted at 4 to 5 dols. per head and general class at 2 to 2.20 mn. Special capones for the meat-freezing establishments are in much demand, and have changed hands as high as 8.50 mn. Special novillos and cows in the Corrales fetch from 40 to 60 dols. per head.

In wheat, several lots of superior barletta from the south of the province have been sold at 9.50 to 9.80 mn the 10 kilos with bags, to be delivered in the Central Produce Market for export, and a lot of 2000 bags French at 9 to 9.30 mn. For consumption, 10 mn is paid in the Once for special barletta lots from the west of the province.

A decree was issued by the La Plata Government yesterday authorizing the Provincial Bank to discount three bills of $500,000 each, two at 90 days and the other at 180 days, to meet the expenses of the Provincial Administration. It seems that notwithstanding Minister Rosas' emphatic declarations to the contrary, the flourishing state of the Treasury and ability of the Government to pay its way from the ordinary revenue, the latter comes in so slowly that the time-honoured system of having recourse to the Provincial Bank has been found unavoidable. With this bagatelle of 1½ million$ the debt of the Government to the bank will stand at a round ten million dollars.

The business of the Equitable Insurance Company is so enormous that *new policies* to the amount of 35 million gold dollars were issued during the past month.

The following operations were effected in the Montevidean "Centro Comercial" on Wednesday :—

With regard to the frauds in the Provincial Mortgage Bank, the president of latter, Mr. Toso, has informed Minister Rosas that proceedings have been taken against the mortgagors, the valuators and the directors who approved of the loans, which turn out to have been made on waste lands and without any of the formalities requisite. It is said that the valuators never even inspected the lands in question. The mortgages correspond to Nos. 7259 and 7793 of the series J.

It rained on Saturday evening, but nothing of any account. Sheepfarmers are all very busy drawing water.

Wolseley Sheep Shearing Machine Company, limited.

Estacion Pereira, 18th Sept. 1890.
Messrs. Agar Cross & Co.
Dear Sirs,
I have great pleasure in reporting favourably of your "Wolseley Sheep Shearing Machine." Up to date we have shorn upwards of 300 Lincoln Rams and Borregas, and find it quite up to our expectations. It is simple and easily handled, and in no way complicated or difficult to understand or work, and so far it has never been out of order. It shears the sheep beautifully : it does them quicker and considerably better than it is possible to get them done by hand, and saves the poor animal a great amount of abuse.
I have timed our Amateur Shearer here, and find he can shear upwards of eight in the hour. Consequently, I consider the Wolseley Machine one of the best patents I have yet seen, in proof of which I intend having some more put up at an early date.
Yours very truly,
WILLIAM RIDDICK.
